

ITT SUPPORT PROGRAMME

Helping NQTs at the start of their career

Following requests from newly qualified teachers (NQTs) and initial teacher training (ITT) providers for additional support during the ongoing situation, education recruitment specialists Vision for Education, ABC Teachers and Smart Teachers have adapted and enhanced our support programme for Summer 2020 and the 2020/2021 academic year.

We are passionate about providing teachers entering the profession with as much support as possible. So, in addition to the online EduCare CPD, Guaranteed Pay Scheme contracts and long-term and permanent roles we offer, we are now also providing NQTs across the country with the following additional support and opportunities for **FREE**.

1

FREE

Mock Video Interview & Feedback Session

Get help to improve
your interview skills &
meet school leaders

We are working closely with headteachers and deputy headteachers to offer NQTs the opportunity to have a mock video interview with a school leader. The questions are designed by the headteachers and will include a variety of areas that would usually be covered during the interview process. Interview feedback will then be provided on strengths and areas for development.

NQT Training & Networking Sessions

From September, our branches will be hosting monthly training and networking sessions for NQTs. It will be a great opportunity to gain valuable CPD and get to meet other NQTs, recently qualified teachers (RQTs) from 2019/2020 and education professionals from local schools.

Enhanced Support

We are currently exploring the possibility of Vision for Education, ABC Teachers and Smart Teachers supporting an online NQT TeachMeet, and developing an online support hub for NQTs and a series of 'Top Tips' guidance sheets, to run alongside our ITT Support Programme.
